## RESOLUTIONS OF THE PRIVY COUNCIL.

At a meeting of the Privy Council of State, held at Iolani Palace on Thursday, Jan. 29, 1891, the following resolutions were unanimously adopted:

AFTER a reign longer than that of any other sovereign of Hawaii but one, the earthly life of our beloved King, Kalakaua, was closed at 2:30 o'clock on Tuesday, the 20th day of January, 1891, in San Francisco, California, United States of America.

Falling health for some months past made it seem advisable that he should seek to regain it by a voyage to the more bracing climate of California, and inspired with this hope, he left his kingdom in November last. The voyage and change of circumstances at first seemed to benefit him, but at length mortal disease appeared with increased vigor, and he sunk to sleep scarce nine days ago in a foreign land. The friendly ship which the Hawaiian people were waiting for with expectant eyes, came this morning, bringing back, not their Sovereign in renewed health, but, alas, his lifeless remains. The decorations of loyal affection preparing for his reception are speedily changed into those of mourning, and we meet to-day in the impulse of a common sorrow.

The reign of our departed King was memorable as an era of remarkable and increasing prosperity. In the seventeen years of his reign, now closed, this nation has made rapid strides in its material industries, education and the arts of civilization.

But death comes alike to King and commoner, and the seventh Sovereign of Hawaii has gone to join the roll of the illustrious dead. We humbly bow to the will of God.

THEREFORE BE IT RESOLVED, That the Privy Council of State here assembled, join with his beloved Consort, His Royal Sister and relatives, and the Hawaiian people, in expressing our great sorrow at this untimely decease of our late King.

RESOLVED, That the foregoing preamble and resolutions be entered upon the records of the Privy Council and published in the newspapers of this city, and

RESOLVED, That the members of this Council wear the customary mourning for a period of thirty days.

C. P. LAUKEA, Secretary.

It is with deep sorrow that we announce the death of His Majesty King Kalakaua, which lamented event took place on the 20th instant, at 2:30 o'clock P. M., at San Francisco, Cal., the cause of death being Bright's disease.

Minister of Foreign Affairs,

J. A. CUMMINS.

## KAHUNAS.

We notice some strictures in the Bulletin by a correspondent signing himself "Hawaiian" on our article of the 7th on the mortuary statistics of the past month. "Hawaiian" does not for very sufficient reasons question the prevalence of kahunanism or the mischief it is doing, but refers us back to the good old times when every rood of ground maintained its man, and chiefs, kahunas and kanakas flourished alike. We can point out several reasons why the kahuna of old was not so deadly as his modern successor. First then the Hawaiian of old was not so susceptible to ailments of many kinds as is his successor. The kanaka of old worked as hard, at all events during the planting and harvesting season as his descendant, but not in rain soaked clothing. Simple diet and life generally gave him more power to resist and vitality to throw off diseases. A wound would heal by the first intention then, where now it would be likely to run a complicated and more dangerous course. But the kahuna himself has changed for the worse still more. He clings to what little he knows of the sorcery part of the business, but has largely lost the knowledge of herbs and simples and handy appliances and innocent febrifuges, and has seized with the profanity of ignorance some of the most powerful, and in hands such as his the most deadly drugs of the modern pharmacopeia. Calomel is said to be in frequent use. What preparations of opium are administered without knowledge only a few Hawaiian speaking foreigners can know. With what cathartics kahuna's patients are drenched few are aware. But the reckless way in which surgical attentions are either avoided at the time of accident, or reversed after treatment is not so easily hidden. But what we more particularly want to point out, is the sorrow and shame of it, that people who are rearing the third generation of Christian-born children, should be, as unquestionably they are open to such pernicious influence.

SCOTT WILSON'S HAWAIIAN BIRDS. Many of our readers may remember the visit some few years ago of Mr. Scott Wilson, F.Z.S., the energetic and eminently successful ornithologist, who whilst here made a most valuable collection of Hawaiian birds. We have been privileged with permission to examine a paper "On some of the birds of the Sandwich Islands," by this gentleman, which he intends

as "a slight sketch, to be elaborated in the large work which he hopes to publish on the ornithology of the Sandwich Islands," but which now constitutes a number of a periodical devoted to bird-science, called the "Ibis."

Before touching on the main subject Mr. Wilson gives an interesting description of the principal forest trees of the Islands, with the altitude at which each species flourishes most abundantly, and adds some very pertinent remarks on the imminent danger of deforesting large tracts of land, which, he justly says, "would lose much of their charm were their native birds, conspicuous for the brilliancy of their plumage, and remarkable from their peculiarities, to be replaced by the noisy Mynah, the pugnacious Sparrow and the Singapore dove." Mr. Wilson was able to secure several specimens of the "Oo," but believes that the still more valuable "Mamo," "Drepanis Pacifica," is absolutely extinct, as the only specimen he was able to get was from the collection of Mr. Mills of Hilo, formed thirty years ago.

This number is illustrated by a most beautifully executed colored lithograph of two varieties of the Akihiloa, "Hemignathus," which he names the H. Hanapepe and the H. Stejnegeri.

We can only say that if Mr. Wilson's larger work be carried out and completed in accord with this fragment, it will be companion volume worthy to take its place beside Mr. Sinclair's Flora of Hawaii, and what greater commendation could we give.

## The Electric Light System.

The attention of readers is called to the notice of E. O. Hall & Son in another column, and more particularly to the fact that this firm is now paying special attention to the installation of electric light plants in sugar mills and other buildings. Among those who have received electric light plants from this firm, which are now in use and working satisfactorily, are the following: Raymond Grove Pavilion, Kekaha mill, Kauai, Union Iron Works, Waihee mill, Hana mill, Paauhau and Hilo mills.

The following have been installed by Mr. Wm. V. Lockwood: Honolulu Iron Works, Paia and Hamakua mills, Maui, Waikeke and Honokaa mills, Hawaii.

## Visiting Berlin.

Among the passengers of the Australia last week was Dr. Brodie, who is off on a vacation, in which he will combine both pleasure and business. He passes through to London where he will visit some of his former fellow practitioners at the London Hospital. Thence he will go to Berlin to make a thorough study of Dr. Koch's lymph, expecting to return to the Islands in four or five months with some of the lymph to be used here. The doctor expressed himself to an ADVERTISER representative as having great faith in the lymph not only for consumptives but for those affected by leprosy.
